When we find and follow our life's calling [poslani], we enter the realm of natural magic. Doors open where there was blockage before. We discover we now have the courage and clarity to deal better with everyday challenges, because we know we are living a bigger story. We draw new people and new opportunities towards us through the spiritual magnetism that we generate.

In Robert Moss' native Australia, the Aborigines say that the Big stories are hunting the right people to tell them, and live them. All we need to do is to put ourselves in a place where they can find us, beyond the tame lands of conventional thinking.

In these great adventures at Maitrea, Robert will show us how to use the powerful techniques of Active Dreaming – his original synthesis of shamanism, dreamwork and creative storytelling – to remember our sacred purpose in this world, and to manifest the resources to follow it. That can change everything for the better.

LIVING BY SYNCHRONICITY: BECOMING A LUCID DREAMER 24/7

Thursday, November 9 / time: 18-21

"We are walking in a forest of living symbols that are looking at us." - Baudelaire

By monitoring the play of coincidence and the symbolic resonance of incidents in everyday life, we can tap into the deeper logic of events, receive extraordinary counsel, and have wonderful fun. Navigating by synchronicity is the dreamer's way of operating in waking life.

In this entertaining, high-energy workshop, we'll learn how to get guidance on our life issues by playing synchronicity games like "putting our questions to the world" and tracking the messages and opportunities that come through chance encounters and unexpected occurrences. We'll learn how to live more richly and deeply by becoming open to the unexpected and playing with the Trickster -- who is our devil when we insist on following old road maps, but our friend when we are ready to improvise and change.

Living by synchronicity isn't merely about getting messages. It is about growing the poetic consciousness that allows us to taste and touch what rhymes and resonates in the world we inhabit, and how the world-behind-the-world reveals itself by fluttering the veils of our consensual reality. This is a path of natural magic, and when we follow it we'll find that we move beyond self-limiting beliefs into a world filled with juice and possibility.

ENTERING THE SHAMANIC DREAMTIME

Friday, November 10 / time: 16-21

In many indigenous languages, the word for shaman means "one who dreams," implying one who dreams strong, one who dreams true, one who has unusual access to healing and energy through dreaming. In this high-energy adventure, we'll learn the core techniques in the shaman's way of dreaming, including:

- The art of dream travel: how to journey smoothly beyond the body into other times and other dimensions --Dream reentry: using personal dream images as portals to multidimensional reality
- Tracking: entering a partner's dreamspace (with permission!) to bring guidance and healing
- Timefolding: scouting the possible future and visiting other life experiences
- Shapeshifting: journeying with the animal powers -- Dream enactment: developing personal rituals and spontaneous art to celebrate the powers that speak to us in dreams We'll share wonderful sacred teaching stories and travelers' tales and learn how -- like authentic shamans.

Conscious Dreaming for Living a Life with Heart

Saturday-Sunday November 11-12 / time: SAT 10-19, SUN 10-16.30

The voice of the heart calls us to live from our deeper life purpose [poslani] and manifest our best and bravest dreams. The heart center is where we find courage to face life's challenges, move beyond self-limiting beliefs and take the creative leap that can fill our world with magic and healing. The heart center is also where we experience joy, and pain, most deeply.

The voice of the heart is sometimes swamped by the noisy clutter of everyday life and the racket of other people who are forever trying to tell us who we are and what we can and cannot do. We may try to silence that voice because we are scared of being hurt if we open to the truth of our strongest emotions. In this exciting new workshop, we will grow a safe and healing space where we can open our hearts and reclaim the vital energy of the selves we have lost through trauma or heartbreak or refusing to follow our heart's deepest desires. We will find our True North, our life's flawless compass, in the thinking of the heart, so much wiser than the calculations of the head.

With the help of the powerful techniques of Active Dreaming we will grow visions of possibility for ourselves and for others, and gather hummingbird medicine: the ability to stay steady and heart-centered in the midst of constant motion. We'll improvise spontaneous ritual, performance and expressive art to honor our visions, and will help each other to find the energy and resources to live the path with heart – the only path worth following.
